Objective

Software Developer with hands-on experience designing and building full-stack web applications using C#, ASP.NET Core MVC, and SQL databases. Skilled in developing scalable software solutions, debugging systems, and applying software engineering best practices. Strong understanding of MVC architecture, RESTful development, and database integration. Passionate about clean code, problem solving, and continuous learning. Proven ability to work independently and collaboratively in Agile-style environments.

Experience

- **Self employed** January 2024 - January 2026
Freelance Application Developer
-Developed custom web applications including booking systems, business websites, and portfolio platforms.
-Managed full Software Development Life Cycle (SDLC) from requirements gathering to deployment and maintenance.
-Designed responsive UI/UX interfaces aligned with client business needs.
-Built scalable backend logic and database structures for business workflows.
-Provided post-deployment support and performance improvements.
- **Bootlegger Coffee Company** September 2022 - December 2022
Waitress
-Delivered customer service in fast-paced operational environment.
-Processed transactions and handled customer issue resolution.
-Strengthened communication, multitasking, and pressure management skills.
- **Johan Plumbers** January 2021 - June 2022
Office Assistant
- Managed workflow sheets, dispatched tasks to plumbing teams, and tracked on-site progress.
- Updated clients via email, generated invoices/quotations, and handled correspondence.
- Oversaw water shop operations: counter sales, refilling bottles, and maintaining cleanliness.
- Skills Applied: Microsoft Office, Cold Calling, Email/Account Management, Customer Service.

Education

- **Durban University of Technology** 2025
Information Communication Technology on Application Development
Diploma

Languages

- English (Fluent) | Xhosa (Fluent) | Afrikaans (Intermediate)

Technical Skills

- C# | SQL
- HTML | CSS | JavaScript
- WordPress | Flutter
- JSON | XML
- .Net | .Net core
- REST API Integration
- Entity Framework Core
- Azure DevOps | GitHub | Postman | Visual Studio
- Relational Database
- Agile Development | Debugging & Troubleshooting
- Object Oriented Programming (OOP)
- Code Review Practices | Software Testing Fundamentals

Core Competencies

- Problem Solving
- Software Development
- Team Collaboration
- Analytical Skills
- Creative design skills
- Client Communication
- Productive and professional in high pressure situations

Projects

• **Clinic Management System (Full Stack Web Application)**

Tech: ASP.NET Core MVC, C#, SQL, Azure

- Designed and developed a multi-role clinic system supporting patients, doctors, nurses, and pharmacists.
- Built appointment booking, medical forms, prescription tracking, and review modules.
- Implemented secure role-based access and authentication workflows.
- Designed relational database structures for patient and medical data.
- Debugged complex UI, backend logic, and date/time system issues.
- Improved system performance through query and logic optimization.

• **Tutoring Website Platform(Role based)**

Tech: JavaScript, HTML, CSS, Java, GitHub

- Built responsive tutoring platform connecting students and tutors.
- Implemented authentication and session scheduling features.
- Designed user-friendly dashboards and booking workflows.

• **Web Application Development Business Freelance Project | 2025**

Tech: HTML, CSS, JavaScript, GitHub

- Delivered custom business web applications for small local entrepreneurs.
- Led client requirement gathering and technical solution design.
- Implemented backend business logic and frontend UI.
- Delivered projects on schedule with high client satisfaction.

• **Personal Developer Portfolio Website**

- Designed and deployed professional developer portfolio.
- Showcased projects, technical skills, and contact integration.

Achievements & Awards

- Built and deployed 6+ fully functional web applications, including booking platforms, portfolios, and business systems.
- Delivered freelance solutions on schedule with a 100% client satisfaction record.
- Resolved complex UI, database, and Date Time errors across C# and web projects, strengthening system stability and performance.
- Balanced rigorous coursework, demonstrating strong work ethics and adaptability.

Certifications

• Microsoft Certifications:

- Microsoft Certified: Generative AI | June 2025
- Microsoft Certified: Azure AI Fundamentals | May 2025

• Cisco Network Certifications:

- Cybersecurity Essentials | May 2023
- Introduction to Packet Tracer | June 2023
- NDG Linux Unhatched | April 2023
- Mobile Digital Literacy | September 2023
